

Field of application and characteristics

The **optoRS485** system can be used for the optical transmission of RS485-signals up to a data rate of 1Mbit/s. It can be used to transmit RS485-signals over long distances or to handle ground potential problems. With the optical transmission and the shielded case, the system is well equipped for EMI and EME tests.

Application

Technical data

Connectors:	SUB-D9 female; identical transceivers
Data rate:	0 .. 1MBit/s, half duplex
Power supply:	5 NiMH cells with 4 Ah (~20h); five-poled charge plug
Case dimensions:	136mm x 86mm x 65mm aluminum case with rubber protectors
Weight:	approx. 800g
Misc.:	optional external battery pack / supply available 19" rack mount or ST optical fiber connectors available on request

Optical fiber

Connector / Type:	FSMA / duplex-multimode fiber 62,5/125µm
